CLEAN AIR AND SUSTAINABILITY DIVISION

Hot Issues:

Limetree Bay Terminal (LBT): OAQPS sent the final draft response letter to David Harlow for review on March 23. OAQPS has since asked a couple of questions about the Single Point Mooring emissions but has not forwarded any revision to the Region for review. Unless OAR has some major issues with the response, the AA plans to sign the letter this week. OAR may revise the letter on its own for the AA's signature. We are coordinating with PAD and OAR on a communications plan.

HOVENSA/St. Croix, USVI: The public comment period on the proposed permit modification ended on March 24. This modification is for the closure and post-closure plans for Landfarms 2 and 3. The USVI DPNR was the only entity that provided comments on the plan. EPA is preparing a responsiveness summary regarding the comments received.
